Gold closed in New York yesterday at 1104.

FROM our reports this morning the probabilities are that the weather to-day will be cloudy, with easterly or southerly winds, and rain.

THE railroad magnates, which according to the Baltimore Sun, recently came on to Baltimore at the rate of fifty miles per hour, to "congratulate Mr. GARRETT on his safe arrival from Europe," have returned. They say that, having secured from the B. & O. R. R. the abolition of drawbacks on freights, and commiscome to full explanations regarding fast olis. freight lines, they are content.

Col. Billy Wilson, the commander of the famous Zouaves of that name, who started from New York under very exciting circumstances, and who wound up his military career by endeavoring to make his escape in hot haste, en deshabille, from Santa-Rosa Island, Florida, died on Friday last. He is said to have entirely reformed his mode of living since the war, and possessed at his death, one of the finest libraries of military works in the country.

FATHER GERDEMANN, the absconding priest, formerly rector of St. Bonifacius Church, Philadelphia, was arrested in Baltimore on Saturday. He stated that he had abjured the peculiar faith of his former Church, and had married his organist, with whom he had eloped. He was arrested on the charge of embezzlement while about to sail for Europe having registered at the Eutaw House, Baltimore, under the name of J. F. NEUSER and lady, which name he said he assumed to avoid notoriety. He was subsequently released on bail, several of the members of the Young Men's Christian Association going on his bond.

IT matters not what political prejudice a man may be possessed of; one thing is very certain and palpable, that the present troubles in Arkansas are unworthy of being supported by any right thinking person. The State was quiet. A quiet election was held there, and the result was an overwhelming victory for the Democracy. No sooner had this fact become established though, than certain parties deliberately, attempted to overthrow the peace which prevailed, trusting to the general government to maintain them. It is noteworthy, too, that these usurpationists are doing nothing themselves. They take care to keep out of harm's way, only relying, as a sort of forlorn hope, upon national interference State government, sustained by the people, is boldly maintaining its ability to protect itself. Even in the degeneracy of these latter days, it is hardly probable that these pretenders will be, for a mo- Card from the Captain of the Irish ment, upheld.

# THE KIDNAPPED BOY.

CHARLEY Ross, the little fellow who was stolen from his parents in Philadelphia, is claimed by parties at Barboursville, West Virginia, to have been found near there, therefore his case is assuming peculiar interest to our citizent. A few weeks ago, a man, woman and boy, traveling on foot, through the county, stopped at the house of a family named McComas, near Barboursville. They remained all night, but left early the next morning, leaving the boy behind, The McComas family, not wishing the boy, he was left at the house of a man named PEYTON. And the fact becoming known, telegraph wires were so connected that Philadelphia and Huntingdon were placed in direct communication. The child answers the description of little CHARLIE Ross, and from other circumstances detailed in our telegraphic columns, it may turn out, that at last, he has been found. For the sake of his distracted parents, let us hope the result may not prove an other mistake.

Decisions of Supreme Court.
Washington, November 16.—The Supreme Court to-day rendered the following decisions: Woodson et al. vs. Murdock et al, appeal from Circuit Court for the district of Missouri. This was a propany, arising from certain advances made by the State to aid in the completion of the road. The decree before was in favor of the company, awarding an injunction to restrain further proceedings, and it is here affirmed.

The State of Maryland vs. Baltimore & Ohio Railroad Company. The points in this case have been several times stated. The State claimed the balance of the interest due from the Company equal to the difference between gold and legal tenders at the dates on which tain payments were made. The Company asserted that there was no contract for payment in gold, and it was so decided below. This view is affirmed here, the Court saying that there was no just ground for the implication that the Company assumed to pay its dues to the State in gold, or in any other money than the money generally in use, and the fact that the Company did pay the State interest in sterling funds in London down to 1865 cannot change the complexion of the contract.
